

WE'RE HIRING!

Internship Innovation Management

Are you a student who likes to work on interesting and complex projects? Do you want to work at a company where you can really contribute? Do you want to join a great team? We are looking for you!

Who are we?

We are a medtech start-up that radically changes ultrasound usage by improving and innovating the way ultrasound examinations are performed. We focus on creating new and innovative solutions for the ultrasound market by making ultrasound easier and more accessible for operators. We enhance current procedures and develop new ultrasound applications by using state of the art technology. This includes wearable & hands-free ultrasound solutions.

Background:

Usono is in the process of growing from start-up to scale-up. Next to ProbeFix, which is currently being sold in The Netherlands, United Kingdom, all Scandinavia and Australia, we are expanding our portfolio with two products within the next 2 years. The business case of each product needs to be deepened and validated. This will be essential to create a successful international operating company.

Assignment

Study: Innovation Management
Period: 3 months – 12 months
Level: Master graduate, PhD or PDEng

Goal

You will work on a business case of the two products that Usono will launch internationally. This will include scenario planning, gather market data and defining a strategy for each of the products. Gathering data of the key opinion leaders is important to validate the business cases, which means that you need to be in the field.

Who are you?

- You think out of the box and are pro active
- You are eager to work in a start-up environment
- You are not shy of performing other tasks as well
- You are able to work within a flexible schedule
- Quick learner

Skills

Change management, financial planning

Interested?

You will join a young and dynamic team, where you will have responsibilities and get the opportunity to explore your boundaries! There is a great atmosphere and we often have team activities. We have flexible working hours and listen to your input!

Are you enthusiastic? Just contact me!
